Candidate Statement:

I am willing to think outside the box, ask tough questions, and look for practical solutions that strengthen Five Points and better serve our members. I bring experience in fundraising, planning large events, and creating opportunities that bring people together. I believe we should continue improving education, local market knowledge, accountability, and the overall member experience.

We also need to create more reasons for agents to engage with the Association—whether through education, networking, events, or leadership opportunities. Clear and consistent structure across the Board and committees will help us work toward the same goals, communicate more effectively, and show members the real value of belonging to Five Points Board of REALTORS®.
